

TELEGRAPHIC.

The C. & E. Didn't Do a Thing.

Winnipeg, Oct. 10.
A. M. Nanton, western representative of the C. & E. railway, was asked why the C. & E. had constructed the C.N.R. line making the connection at Strathcona. Nanton states that the facts are that the C. & E. has never desired to obstruct the building of the spur to Edmonton or making of the connection. However, did object to allowing the connection without an order of the railway committee, as it would have been liable to have done so, and the heavy penalty had it done so. But an order was submitted the C. & E. immediately consented. Mr. Nanton further remarked that he would like the public and people of Edmonton to know that all the C. & E. had been asking is that the owners of the spur line should enter into the agreement involving the operation of the spur by its owners, and proper terms of operating the junction at the C. & E. would it hardly understand what object there was in insisting upon the putting in of the connection now if the owners of the spur were not going to operate it.

A MENONITE WHO SHOOT.

Seven persons were shot by a frenzied settler of Henry Towns, a Menonite school teacher, in the village of Altona, Minn. Angered at the fear of Altona, he emptied a revolver into three persons and shot their children. Then then shot himself and may die.

THE BRITISH EDUCATION BILL.

Mr. Jos. Chamberlain discussed education bill with the liberals unionists, of Birmingham. The conference results in a victory for the colonial secretary. The government will resign if education bill is defeated.

NO BUSINESS IN MANITOBA.

Winnipeg bank clearings for the week amounted two million dollars over 1901.

MANITOBA WHEAT FOR DULUTH.

Wheat shipments to Duluth are being made by the Canadian Northern.

THE COAL STRIKE STILL ON.

Conferences of operators, miners and owners were held in New York but no results were reached.

GENERAL.

The G. A. R. encampment at Washington got down to business that officers and committees were elected. A new leader for the ensuing year, General T. J. Stewart, of Pennsylvania, was elected. He was a leading candidate for the honor a year ago.

The United States government is much exercised over the delay of the Cuban government in ratifying the reciprocity treaty.

Degrees were conferred on Lord Strathcona and four prominent United States' educationists.

Liberal offers of fuel for the poor have been made by Toronto and Montreal cities.

The official reply of President Mitchell to President Roosevelt has been made.

Ben. J. I. Tarte addressed a banquet gathering at Chatham, Ont.

A new customs tariff for British South Africa has been issued.

Henry Hogen, Montreal, a well known local keeper, is dead.

THE GRAIN MARKET.

No deliveries of grain have come in to Edmonton this week, but on the north side several machines are threshing wheat and wheat, oats and barley are being delivered every day to Strathcona.

The Brackman-Ker Milling Co. have bought 10,000 bushels of oats this week and are paying 25 cents for good milling quality. They state that the sample is much better for milling purposes than last year. On Wednesday morning they began milling the new oats.

The Edmonton Milling Co. are buying a few tons for feed and some wheat. As yet no No. 1 hard has been offered, there being much shrunken grain in what is coming in as though caused by getting too soon. A few loads each are bought at 53 cents a bushel and ground for feed.

The Strathcona Brewing and Malt Co. are offering 35 to 40 cents a bushel for all barley coming in. It is reported a good sample both for weight and color.

TOWN COUNCIL.

At a special council meeting held yesterday the offer of Cushing Bros. of \$100 for the 50 light dynamo was accepted.

The application for a natural gas franchise was considered and the matter put in the hands of the fire, water and light committee for enquiry and report.

LOCAL.

—Train on time.
—F. Deggendorfer went to Red Deer this morning.

—The river is very low and gold washers are working on the bar above the bridge.

—W. J. McNamara, of Wetaskiwin, came up on Wednesday's train, returning next morning.

—H. Cartwright, of E. Raymer's jewelry store, is spending a two weeks' holiday at Wetaskiwin.

—On Sunday evening in the Baptist church Pastor McDonald will preach on "The Open Door."

—Col. S. Hughes, M. P., left to-day on a two weeks' trip eastward through the Vermilion district.

—The Cristall Palace Clothing store will be closed to-morrow until 6:30. The occasion is the Hebrew atonement day.

—Mr. McNamara went to Wetaskiwin this morning and will return Sunday. He is relieved by J. Ross, of Ross & Perry.

—Sunday morning service in the Methodist church will be conducted by the Epworth League. In the evening Mr. Buchanan will preach to the young men.

—Col. Hughes, M. P., and J. A. McDonald returned in the early part of this week from a trip northwesterly from Edmonton towards Fort Assiniboine.

—On Tuesday evening 15 new members were added to the Methodist Epworth League. The church was crowded and the league is in a flourishing condition.

—Mrs. James Thompson and daughter, of Lake Preston, South Dakota, mother and sister of Mr. W. P. Walker, Edmonton, arrived on Monday's train on a visit to the latter.

—The United States Express Co. have issued circulars from their money order department to all agents warning them against the forged ten dollar orders from one dollar made by erasing the "one" with acid, and filling in "ten."

—The Weyburn Herald is the latest addition to Northwest journalism. No. 1 of volume 1, has arrived. It is a four page six column paper devoted to news at points along the Soo line in West Assiniboia, of which Weyburn is yet the principal one.

—On Thursday, Regina, the three-months' old child of ex-Con. Blythe, of Fort Saskatchewan, died in Edmonton where Mrs. Blythe is visiting friends. The funeral took place this afternoon at the Edmonton cemetery. Mr. and Mrs. Blythe's home at present is in Cranbrook.

—A Galician boy in the employ of the Bulletin had his right arm broken above the wrist on Thursday forenoon. His hand was in some way caught by the driving shaft. He was taken to the General Hospital where his arm was set. He was doing well at last accounts.

—"Stillman Gott" is the name of a new story by Wm. Day Sibley, published by Wm. Briggs, Toronto. The scene is laid in the small farming and fish-lake settlements on the coast of the State of Maine. The story is wholesome and interesting. The print is large, the paper good and the binding excellent. The book retails at \$1.25.

—A meeting was held in R. Secord's office on Wednesday evening for the purpose of arranging hockey matters for the coming season. The following officers were elected: Honorary president, Thos. Houston; president, Al. Brown; vice-president, J. W. Morris; secretary-treasurer, J. C. McDougall; committee, H. Helliwell, R. V. Bellamy, E. Sibbald, L. Goodridge and R. Robertson.

—W. Pearce, inspector of mines, arrived last night on work connected with the inspection of surveys in this district. Mr. Pearce has recently been engaged in supervising the survey of 50,000 acres of coal land in British Columbia on the line of the Crow's Nest Pass railway, which belongs to the Dominion government. The selection was made last summer, and the survey now being made finally decides what is owned by the Dominion government.

—John Rose, of John Ross & Co., returned recently from a trip through the surrounding country accompanied by Messrs. White and Stewart of the National Trust Company. The first part of their trip took in the Sturgeon, St. Albert, Morinville and Riviere Qui Barre settlements. Mr. White expressed himself as fully satisfied with what he had seen, and returned east, leaving Mr. Stewart to look over the rest of the district. Messrs. Ross and Stewart then went from Edmonton east to Fort Saskatchewan, Star, and Whitford. Then back to Edmonton and down the line to Wetaskiwin. From Wetaskiwin they drove east to Da-hamed. Then back and still down the line to Lacombe. Then east nearly to Buffalo lake. On their return to Lacombe, Mr. Stewart returned east and Mr. Rose to Edmonton. Both Messrs. White and Stewart expressed themselves as delighted with the country and as having very confidence in its future.

—R. Jarvis, chief of police of Nelson, B. C., is in town on a short visit.

—J. W. Morris will occupy his new store in the McLeod block on Monday.

—Mr. Dunn, of Battleford, proprietor of a string of notable race horses, is in town.

EDMONTON BULLETIN, OCT. 10th, 1902.

A PROHIBITIVE TARIFF.

Just what the great producing industries of Canada are up against in the campaign of the manufacturers for a higher tariff, is only being developed from day to day. At first the talk of higher tariff was not taken seriously. For years the manufacturers and their friends had been asserting that the much lauded national policy tariff had not been changed. They had declared their satisfaction with that tariff, therefore they must be satisfied with its continuation. But it now becomes apparent that whether the present tariff is the same as that which preceded it or not it is not satisfactory to the manufacturers. The question of what has been is out of consideration. The question of what is to be is up. Anticorporate campaign for a general increase in the tariff is in progress, and the leading part in the campaign is being taken by the Hon. J. Israel Tarte, minister of public works in the liberal and supposedly low tariff government. Whatever explanations may be due between the several members of or factions in that government or between the government and its supporters, the fact is that the Hon. J. Israel Tarte is the accepted—although self-elected—leader of the campaign for higher tariff. What he says may be taken as voicing the views of the manufacturing interests. It is interesting to know just how far they are prepared to go. During the recent visit of the Hon. Mr. Tarte to Oshawa, he laid the corner stone of an addition to the McLaughlin Carriage Works. In the course of his remarks he took occasion to say that:

"If by means of a readjustment of the tariff, he could assist them to employ two or three hundred more hands, they could rely upon him to do so. He regretted that \$1,000,000 worth of carriages were imported into Canada last year, and expressed the opinion that these goods should have been manufactured by Canadian workmen."

Buggies (carriages) are admitted at a duty of 30 per cent. This duty was not further reduced in 1897 presumably because buggies are to a certain extent a luxury. While the manufacturer of the finished buggy has the protection of a duty of 30 per cent, he is allowed to import spokes, felloes, shafts, and irons for the buggies either free or at a nominal rate of duty. As a matter of fact the so-called carriage factories of Canada are merely fitting shops, where the imported materials are assembled, fitted together and painted. No wonder this industry should be profitable or that the McLaughlin carriage works should be compelled to add a new wing to their establishment. And yet in the very act of laying the corner stone of the extension the chief apostle of the policy high tariff offers them still higher duties on their finished product or lower duties on their materials.

If there is one class of manufacturers in Canada who should not need a more favorable tariff it is the carriage makers, and if there is an industry in Canada which does not need more protection it is the same industry as the prosperity which it admittedly enjoys shows. When a more favorable tariff is specifically promised it is evidence that whether or not the present tariff is the same as the one which preceded it, the one which is to be framed as the result of the present campaign will certainly be different; and higher not only than the present tariff but than the preceding one,—that prevailing under the so-called national policy. The campaign is not for a revenue tariff or for a protective tariff but for a prohibitive tariff.

YOUNG MEN'S INSTITUTE.

Last night at the Young Men's Institute a debate took place on the question, "Resolved, that free trade is more beneficial to the Territories than the protection policy."

R. Aldridge occupied the chair. W. A. Griesbach and R. V. Bellamy spoke for the affirmative and Messrs. Killen, Gilbert and Helliwell for the negative. On being put to a vote the negative side was declared the winners.

Next Friday night a debate will be held on the subject, "Resolved, that the pen has done more towards civilization than the sword."

Manitoba Weather and Crops

Commercial, Oct. 4. The weather has been generally favorable this week, and threshing has progressed as rapidly as possible with the short force of men available. There were some local rains in a few sections about the middle of the week, but not heavy enough to cause serious delay. The fine quality of the crop is being maintained, and the yield continues to show very heavy returns.

LOCAL

—Next Thursday is Thanksgiving and a public holiday.

—Mrs. Fontaine, of Ladue, spent Tuesday and Wednesday in town.

—R. C. Bauer, lumber dealer of Wetaskiwin, was in town yesterday.

—John L. Johnston, went down to Calgary yesterday on a business trip.

—C. Kinniburgh, piano dealer of Calgary, was in town yesterday on business.

—Half a million dollars worth of building has been done in Calgary this season.

—Mrs. Cameron, of Brandon, Man., is visiting her daughter, Mrs. A. Bruce Powley.

—Frank Hamilton, of Wetaskiwin, returned yesterday after spending a few days in town.

—Harry Acres, V. S., has removed his office to the Imperial Bank block, with Edmiston and McGeorge.

—W. F. Henderson, has arrived from Winnipeg to take the position of accountant in the National Trust Co's office.

—Miss Lynch has arrived from Winnipeg and will open the kindergarten school in All Saint's school room on Monday.

—Northern Alberta Teachers' Association will hold their annual fall convention in Strathcona on Monday and Tuesday, Oct. 27th and 28th.

—On Wednesday W. H. Cooper, license inspector, removed his office from over Mercer's liquor store to the second floor of the new McLeod block.

—E. W. MacKenzie removed his stock of books and stationery yesterday in the new store built in addition to the Walker block, next door west of W. Johnstone Walker.

—The Ladies' Aid society of the Presbyterian church will hold a bazaar with tea and musical programming in the basement of the church on Thursday evening, Oct. 23rd.

—A. W. Ormsby is busy erecting new pole lines on Victoria avenue, Second street, lane south of Jasper avenue, and from Victoria avenue down Fourth street to the new power house.

—J. B. Lauback has dug a well on the site where the new stable will be built. An excellent spring was struck in a vein of gravel at a depth of 23 feet. The water is the very best.

The three brickyards in the Saskatchewan valley between Edmonton and Strathcona have manufactured this year, 3,550,000 brick nearly all of which have been consumed by the two towns.

—Wednesday about noon a fire broke out in the Walter's planing mill and blacksmith shop, just west of the sawmill, but was discovered and extinguished before any serious damage was done.

—The town is opening up Rice street from Queen's to Fraser avenue. Fourteen feet were required from J. B. Lubbock's lot, and the foundations for his stable had to be moved back that distance.

—H. H. Robertson and family left Thursday morning on a trip to California to remain the winter, visiting Mrs. Robertson's father, Miss Essie Winkler, sister of Mrs. Robertson, accompany them.

—Fire broke out in a sample room of the Criterion Hotel, Wetaskiwin, on Wednesday, but was quickly put out by a Victor fire extinguisher, which was kept on hand. Considerable damage was done to a traveller's samples.

—Chas. Leacock, of the Canadian General Electric Co., Toronto, arrived Wednesday night to superintend the installation of the new electric light plant, contracted for by the town, and to assist in revising the old system.

—Robt. Ochsen, manager of the Strathcona Brewing & Malting Co., purchased the first load of this season's barley on Tuesday from Mrs. Minka, Strathcona. It is a good sample both in weight and color. The price paid was 40 cents a bushel.

—Fort Saskatchewan rifle association are holding their fall matches yesterday, to-day and to-morrow. The Edmonton riflemen in attendance are J. F. Forbes, W. E. Beist, H. B. Spratt, W. Pearce, S. H. Smith, L. Hooper, W. Clark and H. Miller, J. Carmichael, of Strathcona, is also attending.

—W. McKay, repairer on the government telegraph line, returned on Monday from a two months' trip repairing the line as far east as Fort Pitt. Crops were very fair at St. Paul de Metis, Saddle Lake and Victoria as well as in the settlements immediately east of Fort Saskatchewan. Large buildings have been erected at St. Paul mission.

SPRUCE GROVE

Until further arrangements are made we are informed the Rev. Mr. Brook, the Methodist missionary in charge of the work on Stony Plain East is going to conduct a service in the Glen Hill school house every second Sabbath at 7:30 p. m., the first service to be held Sunday evening, Oct. 12th. All are welcome.

Wm. Krause, of the Glen Hill district is having the roof very rapidly placed upon his house which has been for some time unfinished. When fully completed Mr. Krause will have the most imposing residence in the whole district.

Last week the face of our genial grocer and general merchant—Mr. J. Brox—was very peculiar by its glow. Our good country upon making enquiry for his welfare were frequently told that he would soon be getting out of the hospital in a boat. Certainly he returned but he felt somewhat happier than he had been. It was his first wedding day. We wish for Mr. and Mrs. Brox a long and happy life of happiness and prosperity.

WETASKIWIN RACES

The Wetaskiwin sports committee have arranged for the following program of races to be run off at Wetaskiwin on October 15th:

Named race—Purse \$75. Trot or mile heats, 3 in 5. Pioneer, May Hill, May McInnes, Bill Owen, and any other horses the committee may deem eligible.

Farmers' running race—Purse \$75. Half-mile heats, 2 in 3.

Farmers' trotting race—Purse \$75. Mile heats, 3 in 5. Open to horses which have never won public money. Must be driven by owners or owner's son, and owned by them at least 60 days previous to date of race.

Open running race—Purse \$75. Half-mile heats, 2 in 3.

Quarter mile race—Purse \$30. Quarter mile heats, 2 in 3. For ponies 14 hands and under.

Indian race—Purse \$10. Half-mile heats, 2 in 3.

Bel River cart race—Purse \$1. Half-mile dash to be driven by squaws.

WETASKIWIN

Time Oct. 2. Mr. Manning, of the Edmonton branch of the Merchants Bank returned on Friday's train after relieving V. C. James, here for a couple of weeks.

C. Young, cattle buyer for P. Burns & Co., is shipping from Wetaskiwin 11 tons of beef steers on Oct. 6th, he is also shipping about 600 head of cattle on Oct. 15th. This will make about 1,000 head P. Burns & Co. will receive from Wetaskiwin this season.

Word has been received from Rev. J. Smith who went to Winnipeg to have an operation performed on his broken knee cap. The operation has been successfully performed and he is progressing as favorably as can be expected.

A sidewalk was built on Lansdowne street east from J. F. Fowler & Co's corner to the fair grounds, and one is now being built on Railway street west from J. W. Harie & Co's corner to V. C. James' residence. Other sidewalks will be built before the close of the season. This might be termed "sidewalk year in Wetaskiwin."

The Globe and the Tariff.

Brenton, Sept. 26.—The Globe today editorially endorses Ross' declaration in favor of policy of Canada for Canadians, and says it could not conceive of any Canadian minister or Canadian journal defending any other policy.

The Globe continues: "We agree with Ross and with everyone else who says that the Canadian tariff ought to be framed in the interests of Canada, but we reserve our right to say what kind of a tariff that should be. We believe that the tariff of 1897 was a substantial measure of tariff reduction, and that in the main the policy which it embodied ought to be maintained. We believe that the two cardinal virtues in the tariff are moderation and stability and that both these are endangered by the movement for McKinleying the tariff whoever may approve of it. We believe that the tariff for retaliation is an un-Canadian policy. We do not want the American congress to frame our tariff, as they would do if we invited it, in a spirit either of servility or resentment. The Canadian farmer and manufacturer, Canadian producer and consumer, are the persons whose interests are to be considered by our legislators. There is no fear of their enacting tariffs in favor of foreign countries; that is simply an invention or dream of partisan malice, but there is danger of demagogic appeal to prejudice against foreigners should result in a tariff which will strike not only at foreign, but at British imports, and which will impose duties so high as to produce monopoly and stagnation in industry. The policy of Canada for Canadians will not be promoted in that way."

Toronto Star: Lots of men who denounce the selling to Canadians of goods made by "the cheap labor of Europe" would make labor just as cheap here if they could do so, and would bring in Chinese by the shipload.

POLLARD'S BRICKYARD.

Brickmaking for the season has come to a close in Pollard's brickyard, in the flat west of Walter's saw mill, Strathcona, except to complete the burning. The season's output is 950,000. Of these 390,000 are delivered already and a kiln of 300,000 just cooling is sold and will be delivered as soon as cool. The last kiln of 260,000 is being burned at present. Wood is used entirely.

A ready market has been found for the brick, chiefly in Strathcona, though a few have been delivered in Edmonton and 100,000 shipped down the line. A good sample of brick has been manufactured all season.

BATTLEFORD.

Herald, Oct. 1. The centre span of the Battle river bridge is now in place and a portion of the truss work is also up.

Good bags of prairie chickens are being made every day in the neighborhood of the town. Waterfowl are also coming in from the north.

Geese are plentiful at Mr. Paynter's farm, Grafton. In the course of a very short time on Saturday evening Rev. J. F. D. Parker killed twelve.

G. W. Allen, of the firm of Allen & Munson, Winnipeg, passed down last week. He came from Edmonton by the south side of the Saskatchewan, and crossing here continued his journey on the north.

Stacking is all finished in this district and was begun and completed without interruption by rain or other unfavorable weather. The yield, both in quantity and quality, is all that it gave promise of being before harvest.

The Sayer Brothers purpose beginning threshing this week. The Mounted Police at this post have just finished their target practice for the season. They are using the Winchester carbine and some excellent scores have been made.

MINE EXPLOSION AT FRANK

Sentinel, Oct. 6. Sunday night another fatal accident happened in the mine here by which two men were killed and another lies ill in the hospital. The accident was caused by a gas explosion in the room at the head of 80 and 87 chutes and is the first serious accident to happen here caused by gas, as up to this time the mine has been fortunately comparatively free from it. The victims of this accident are D. Davis, W. Clark and John Haines, the latter two of whom were killed and the former is under the doctor's care with every chance for recovery.

Yesterday a committee of ten practical and experienced miners, appointed by the Miners' Union of this camp, accompanied by two fire bosses selected by themselves, visited the company's mine here. They were given full permission by the mine officials to inspect and all courtesies extended to them. They made a full, complete and thorough inspection of all the underground workings and have pronounced the mine in first class shape and one of the safest mines to work in in Canada. This finding of the miners' committee was endorsed by them upon the book of the company kept for mine records.

HOTEL ARRIVALS.

Monday. Grandview—E. J. Baker and wife, Sandpoint, Ida; John Siel, Stony Plain; R. E. Walker and wife, E. J. Hippoch, Ponoka; J. L. Galwan, Belfast; M. Nolen, R. Nolen, R. Lowiet, H. Marcott, Lamoureux; F. W. Thompson, Medicine Hat.

Victoria—T. McGee, Stony Plain; L. Johnston, Winnipeg; C. Robert, L. Levesque, St. Albert; T. Meunier, Morinville; Rev. St. Boniface, Sandy Lake. Alberta—J. A. Fainley, Ponoka; Knox Henry, Montreal; W. W. Millchamp, J. S. Arnold, Toronto; W. J. Cummings, Regina; J. Tucker, Mooseman; J. E. Carregins, J. Malcolm, Winnipeg; J. Michael, F. L. Condon, London; P. Pringle, F. L. Condon, London; P. E. Smith, Naismith, Lethbridge; P. E. Smith, Leamington; R. B. Price, Wetaskiwin; P. M. Evans, Vancouver; P. S. Bunch, Lacombe.

Queen's—M. Goldie, St. Albert; A. Morin and wife, Fort Saskatchewan; Kennedy, C. Stewart, Fort Saskatchewan; John McNamara, J. J. McNamara, and wife, Robt. Dunning, Ponoka; D. MacPherson, Cecil Howbet, Fred Crowder, Winnipeg; R. H. Sargent, Rosebury, Oregon; Wm. L. Woodhouse, town, Chas. J. Leavick, Toronto; M. Munier, Morinville; J. F. McGregor, Wardville, Ont.; A. O. Simpson, Lacombe. Miss Kate MacDonald; August Kramps, Camilla; S. P. Dewar, Egg Lake; Oswald Carriere, Arthur Courrier, Dawson City; Yukon; Zepher Granger.

Tuesday. Alberta—John C. McKay, M. Evans, O'Brien, Wetaskiwin; S. Hughes, Lindsay, E. L. Dennis, Montreal; S. Gibson, A. W. Grange, Nanaimo, Ont.; W. Castle, Geo. N. Care, Winnipeg; Geo. H. Stewart, J. A. Donaldson, Calgary. Grandview—Mrs. D. Nolin, R. S. Nolin, A. Nolin, Lamoureux; C. J. Leavick, Toronto; Miss M. Coffey, Morinville; D. Steeves, Sturgeon river; Jas. Kernohan, Vermilion; R. Castle.

Jasper—A. B. Bland and wife, Namas; John C. McKay, Wetaskiwin; W. Melwick, Beaver Creek. Queen's—W. Burris and wife, Lacombe; W. J. Jackson, Agriola; John McNamara, August Kramps, A. Bagar, Lion's Head; J. Droget; H. Marcott, Fort Saskatchewan; A. Demaro, H. Lamoureux, St. Glave, Stony Plain. Victoria—G. L. Blang, Leo Brown, St. Albert; Mr. and Mrs. McNamara, Wetaskiwin; Mrs. W. L. Strathcona.

WEDDING BELLS.

A very quiet pretty wedding took place at the residence of Mr. W. R. Gibbons, New Lunnun, Alberta, on the evening of Friday, Oct. 3rd, when Mr. P. A. Acres, of New Lunnun, was united in the bonds of holy matrimony to Miss Florence Parker, of Ancestor, Ont. Rev. G. C. d'Easum, rural dean of Edmonton, performed the ceremony, and the bride was given away by Mr. Gibbons. The bride looked charming and "bridey" looked an ideal bridegroom. After the ceremony the guests partook of a sumptuous wedding supper which was prepared by Mrs. Gibbons and for variety and quality was hard to excel. The table was prettily decorated with autumn leaves. During the remainder of the evening the guests were entertained by music and the happy couple left for home in the wee sma' hours amid a shower of rice and good wishes. —Com.

FARM HANDS

Mr. Robert Adamson, of the Immigration Branch of the Department of the Interior, is on his way to Scotland for the purpose of bringing a number of experienced farm hands who will enter into a year's engagement at \$200 wages, and board and lodging. These men will be carefully selected by Mr. Adamson, and are expected to arrive about the 22nd of December.

Any farmer desiring to secure one of these men should make application in writing to the undersigned accompanied by \$25 on account of passage-money for each man, which sum will be deducted from the first three months' wages. All applications should reach the undersigned not later than the first week in November.

J. OBED SMITH,

Commissioner of Immigration, Winnipeg, Man.

SOUTH ALBERTA OIL FIELDS.

Vancouver, B. C., Oct. 4.—A company with a large capitalization has been formed in Vancouver to secure sections of land in Alberta, district N. W. T., where oil wells have been sunk. The price paid for the land was \$65,000 and much of it has traces of oil on it.

The land was purchased, it is said from Mr. Aldridge, a rancher who has been making a livelihood by selling what crude oil he could collect from the surface.

Typhoid in Winnipeg

Tribune: There is an unusual amount of sickness in the city at present, and the institutions for the care of the affected are crowded to their capacity. The general hospital is over-taxed just now, and it is difficult to secure admission. There is a full house at the St. Boniface hospital also. The numerous cases of typhoid now prevalent are responsible for the rush at the hospitals. The city physicians report a great deal of typhoid in the city.

Mr. Maxwell III.

Mr. Geo. Maxwell, M. P., for Vancouver, is ill in a hospital in Montreal.

DOMINION LAND SURVEYOR.

Office—Bulletin Block, Edmonton, Alta.

P. ANDERSON & CO.'S BRICKYARD.

Operations in the brickyard of P. Anderson & Co., opposite the bridge, are nearing a close for the season, except in making dry pressed brick. The frost does not interfere so much with the making of these and it is expected that the machine manufacturing them will be run for some weeks yet.

In the early part of the season much time was spent in opening up and improving the yard as last year only a beginning was made. The construction work this year includes an engine and boiler room with coal sheds; installation of a second boiler; refitting of considerable machinery; fitting up of a tramway 125 yards long from the clay pits to the platform over the brick machines, with cable car and winding drum; 16 drying sheds each 180 feet long with capacity for 12,000 brick each; plank runways over the tire yard; grading of road leading to yard with bridge over Mill Creek; and of road from coal sheds to mine in Mill Creek bank; one permanent kiln with capacity for 150,000 brick and clearing the wood off about 12 acres of yard.

Besides the time spent in construction, a break occurred on the engine which took considerable time to repair. About two months in all were lost from actual brick making.

The manufactured material includes pressed, wire cut, ornamental, hollow and fire brick, and tile.

The pressed brick is made from dry clay ground fine and shaped by means of great pressure. It makes the best of facing brick being very hard and smooth with perfect edges. The size is 8-1/2x2-3/8x1-1/8 inches, each brick weighing 5-1/4 pounds.

The wire cut brick is the ordinary building brick 8-1/2x2-1/4x1-1/4 inches, weighing 4-3/4 pounds.

The ornamental brick is made by special dies fitted to the wire-cut machine, 7 styles being manufactured at present.

Only a few hollow brick were made as an experiment. They are made 4-1/2x8-1/2x15 inches with 2 square holes 2x2 inches through the flat side. These have been used largely in Winnipeg lately for partitions, the plaster being put on without lathing, also for the inside tier in walls giving the effect of a hollow wall. They were imported from the States. Next year they will be manufactured largely in this yard.

Also only a few white fire brick were made but enough to warrant a success in this line.

Terra cotta can be successfully made to order and will receive more attention another year.

Tile also was only experimented with and demonstrated that it too will soon be an industry of itself. All sizes were made from 3 to 10 inches in diameter, a few hundred altogether being made.

The total season's output to date includes: Wire cut brick, 925,000; pressed brick, 40,000; ornamental brick, 15,000. Samples of hollow brick and white fire brick making a total of nearly a million brick and a few hundred tile.

Of these 900,000 are already burned and the remainder will soon be completed. Wood has been used in the kilns, about 500 cords being required for the full season. Coal is used for firing the boilers, and as it is mined on the spot is very cheap and may be used in the kilns next year.

It is expected that 100,000 more pressed brick will be made this fall. Very little brick has been sold to outsiders as the company's building contracts in Edmonton require nearly the whole output. It is intended to keep 300,000 on hand for early spring building.

The engine, when speeded up, develops 110 horse power. The capacity of the wire cut machine is 40,000 and the dry press 20,000 per day. As both these can be run together, with sufficient force it enables a daily output of 60,000 to be made. However, as yet only one machine is usually run at a time and the average output has not reached the full capacity.

It is the intention to enlarge the capacity of the yard still further next year and employ more men. This year 30 hands, 10 being skilled men, and 6 teams have been employed most of the season.

The prices delivered in Edmonton or Strathcona of the various products of this yard are set as follows: Pressed brick, \$15.90 per M; wire cut brick, \$8.50 per M; ornamental brick, 2-1/2 cents each; tile, \$15.00 to \$20.00 per M, according to size; hollow brick, \$18.00 per M; white fire brick, \$50.00 per M for best; terra cotta, \$1.00 per lineal foot.

With the improvements that have been made this year and those that will be added next year the yard will be in a position to run longer each year and turn out larger supplies.

The company is composed of P. Anderson, contractor of Edmonton, and James Ross, the well known old time hardware merchant of the firm of Ross Bros., who personally oversee the affairs of the yard.

GENERAL HOSPITAL.

The sisters in charge of the General Hospital offer their grateful thanks to the following donors who have been assisting them during the last month: Messrs. Hallier & Aldridge, W. H. Hooper, Dr. Harrison, L. Lachambre, J. Gibbons, Indian Agent, H. W. B. Douglas, Dr. Craig, G. Duggan, M. A. Davis, E. C. Gordon, J. Tipton, J. Thomson, Dr. Hotson, W. H. Sheppard,

Brackman-Ker Milling Co., Strathcona Brewery & Malting Co., J. Walker, Messrs. Beck, Gallagher, J. Kelly, Chelmer, A. E. Jackson, Gariepy, L. G. Voyer, Leclerc, Lauder, J. Voyer, Shields, Deggendorfer, Dowler, O. Tessier, Kirkpatrick, G. Ray, and all the generous contributors to the annual subscriptions just taken by the Ladies' Aid Society.

PUBLIC HOSPITAL.

The Public Hospital wish to thank the following for donations in September;

1 case peaches, Mrs. Fred Ross.
1 box apples, Hallier & Aldridge.
Flowers and vegetables, Miss E. Graham.

Grapes, Mr. LaChambre.
Flowers, Mrs. Ross and Mrs. Easton.
Vegetables, Mrs. Ross (Belmont) and Mrs. Ball.

Cabbage, Jas. Stovel.
Butter milk, Mrs. Steffington.

The Hospital Society intend holding a charity ball on Friday, Oct. 31st (Halloween). The advertisement appears in another column.

PROGRESS AT LETHBRIDGE.

P. L. Naismith, manager of the Alberta Railway & Coal Co., of Lethbridge, was in town on Tuesday to secure laborers for the coal mines. The Pennsylvania coal strike is at last affecting Alberta mines and the increased demand requires that the company put on more men. He expected to be able to procure as many as would meet present requirements. Under the changed conditions brought about by the strike the coal company have been given a rate by the C. P. R. that will enable them to enter the Winnipeg market. This is an immense widening of their market, and the output must be largely increased to fill it. Speaking of matters in general at Lethbridge and vicinity, Mr. Naismith said that the work of widening the gauge of the company's railway to the boundary would be completed about Nov. 1st. The distance from Lethbridge is 68 miles. Work is also going on on the part of the line south of the international boundary to Great Falls, but this will not be completed until about the 1st of January. The distance from the boundary to Great Falls is 134 miles. This part of the road has been purchased by the Great Northern and that company will operate the road to Lethbridge as soon as the widening of the gauge is completed. The gauge of the St. Mary's railway is also being widened from Stirling, the point of junction with the Alberta Railway & Coal Company's road to Raymond, eight miles. This is done to enable the 2,000 tons of machinery required for the sugar beet factory to be erected at Raymond during the coming summer to be laid down without transhipment. There will be a third rail on the track, the narrow gauge trains running from Stirling on the main line to Spring Coulee, the present terminus of the St. Mary's road.

Raymond with its prospective sugar refinery is the wonder of South Alberta. In August, 1901, there was nothing there. Now there is a town of 600 people. Four to five thousand acres of excellent crop was harvested in the immediate vicinity this season, and next season as many acres of sugar beets will be grown. A roller mill of 125 barrels daily capacity is in process of erection. Also an elevator. The foundation of a half million dollar sugar beet factory will be laid this fall to be completed next fall in time to work up the crop of beets. The factory will have a capacity of 400 tons of sugar beets per day, and will run from three to four months each season; that is from Oct. 1st to some time in December. Sugar beets are estimated to yield 18 tons to the acre. The growth of these beets and the manufacture of sugar has proven a success in Utah and chemical tests give a higher percentage of sugar in the beets grown near Lethbridge.

During the past season all crops grow without irrigation, but in case of drouth all the land under cultivation can be irrigated from the big St. Mary's irrigation canal. The rain fall this season was about 30 inches. Something unheard of in a region usually cursed with drouth.

In the settlements at Magrath, Raymond, Stirling and Lethbridge there is estimated to be 600,000 bushels of grain this season, where three years ago there was not a bushel. A great deal of the crop at Stirling and Magrath was laid in wheat, which is conceded to be the coming grain crop of the south country. It is sown very early, in June or July, if possible, and it does not matter how high it has grown before winter sets in.

In the Cardston settlements on the foothills further west than the irrigation canal extends there were also good crops but they were flattened by an early snow fall which will lessen the yield and quality and increase the cost of saving.

There has been a large influx of people and consequently progress of the country has only begun.

Don't Read This.

The Edmonton Soap Co. will be at Strathcona, October 11th, and will introduce from special wagon at 2 p.m., their Soaps. They offer 25 large bars for \$1. Fort asks eleven, 10 over 12th, and St. Albert, October 21th. Everybody come and see the fair, and save money. Soaps for sale after these dates, by manufacturers at 5 cents a bar.

Headache.

Pain across the forehead or at back of head is dangerous. It slowly but surely weakens the intellectual powers, impairs the vitality and will. Headache is sometimes from the eyes but more frequently is caused by a disordered condition of the stomach and digestive organs. Do not suffer. The pain can be cured by the harmless remedy

Abbey's Effervescent Salt

It never loses its effect. Cures by driving out the poison, and does not simply deaden the pain as do so many preparations containing narcotics. Abbey's in the morning will make you well and keep you well.

Save the Baby

Nestlé's Food will so strengthen an infant that it can withstand the enervating effects of hot weather. It is a preventive of Cholera Infantum. Your physician will recommend it.

Donald Ross, stable 65x35, value \$800.
Canadian Northern railway, station house, 21x40 feet.

Town of Edmonton, an electric light and water power house, brick 64x91 feet, with wing 30x36, not complete, and chimney 90 feet high complete.

ST. JOACHIM'S MISSION.

Rev. Father Jan, of St. Joachim's, who has been on a visit to his former home in Brittany, France, sailed from France on Sunday last. He brings with him ten nuns of the order of Daughters of Jesus, who will take charge of the mission's palace and the seminary at St. Albert, and of the presbytery at Edmonton.

Rev. Father Zoidak, who was in this district last year sailed from Hamburg on Monday accompanied by four Basilian fathers of the Greek rite and three nuns, also of the Greek rite, to establish Greek Catholic missions in the Galician settlements of this district.

Rev. Father Naessens, formerly in charge of Dunbow Indian Industrial school, sailed from Belgium on October 2nd accompanied by Rev. Father Flapatrik, O. M. L., who will work in the diocese.

Rev. Father Lacombe is on his way back to Edmonton accompanied by Rev. Father Dubois, formerly of Wetsaskiwia, and Rev. Father Desgarniers, of Quebec, who will engage in work in the diocese.

EASTERN TOWNSHIP BANK.

The Winnipeg Tribune publishes the following Montreal despatch, dated October 4th: The Eastern Township Bank is rapidly increasing its agencies and extending its business. Branches are to be opened in the near future at St. John's, Winnipeg and Edmonton. Mr. James Mackinnon, general manager, is in the west arranging for the Winnipeg and Edmonton branches. W. L. Ball, of Richmond, is to go to Winnipeg as manager.

FOR CREAMERIES

Lacombe Advertiser: Whatever Central Alberta will or will not be, of this we may rest assured, that as a dairy country it will stand pre-eminent. It is not necessary to rehearse the reasons upon which we base this conclusion as they are familiar to all. Suffice to say that with the excellent varieties of natural grass, the equable climatic conditions, and the abundance of clear cool water from the mountain streams as well as that which bubbles up in crystal springs, Central Alberta possesses the three great requisites of a dairy country.

Creameries are established in various towns along the line. At Innisfail the creamery has about 120 patrons, milking 1200 to 1500 cows and the creamery will turn out 100,000 lbs. of butter this season. At Red Deer 60,000 pounds of butter were made last year. Stops are being taken to establish creameries at Bowden and other points. Lacombe is without a creamery and Lacombe needs one.

WHITE WHALE LAKE

A letter was received last week from the postmaster general saying that tenders would be asked for a fortnightly postal service to our settlement. While we are thankful for this recognition of our needs, it is not what we need. Our petition was for a weekly service. As it is now, we get our mail almost every week and sometimes often from Stony Plain postoffice; for there is usually some settler going down to Stony Plain or Edmonton every week to get supplies; and whoever goes brings up the whole mail for the settlement.

A writer in a recent issue of the Bulletin spoke of Lake St. Anne as noted for the excellent flavor of its fish, and White Whale lake for the abundance of its supply. This writer does not apparently know that large quantities of fish have been taken from White Whale lake and sold in Edmonton as Lake St. Anne fish by persons whose ideas of truthfulness have never been rightly developed.

We noticed another paragraph some time ago about an egg 6-1/2x8-1/2 in. And in that same missionary's garden we saw a turnip measuring 27 inches around. Its weight is not known yet because not yet pulled.

It would seem as if there would be some need for a branch of the Lord's Day Alliance, if some of our settlers do not soon awaken to the fact that the law in Canada forbids ordinary labor, hunting, etc., on Sundays.

Crops in this neighborhood have all been gathered in excellent shape. No hail to visit us, and no frost to injure.

The annual treaty payment to the Indians of this reserve will take place about the 6th or 8th of October. It is creating much less excitement than usual, because our people are finding themselves in better condition through more self help. There is not nearly so much destitution as in former years. Fruits have been very plentiful, also game and fish.

Quite a number of our settlers have recently received notice of the imposition of a land tax for local improvement purposes. As no local improvement district had been organized by the people here it caused some surprise, but enquiry develops the fact that an Order-in-Council has formed all the territory between south side of tp. 50 and south side of tp. 60, and between west side of range 8, west 11th line, 4th and west side of range 6, west of the 5th, into large local improvement districts by 25 townships, the only parts excepted being those previously organized into small local improvement districts electing their own overseers.

The settlers south of White Whale lake reserve were quite sure they had their school district organized. They secured instruction, and followed these instructions to the letter; yet when the report was sent to Regina an official was able to find flaws in it as not being according to the Ordinance. This official failed to send the Ordinance in the first place when asked for it, but sent printed instructions. The result is the settlers have had to call another meeting and go through all the ceremony again to satisfy this official whose blundering caused all the trouble. It is a rather unsatisfactory way of demonstrating that he is doing something for his salary, and he should be told that such blundering is intolerable.

W. W. McLEOD,
Post Office Inspector.
Winnipeg, 3rd Oct., 1902.

NOTICE TO CREDITORS

Of Noah Ziegler, late of Spruce Grove, Alberta, Deceased.
Notice is hereby given pursuant to the order of the Honorable Mr. Justice Scott, dated at Edmonton the 26th day of September, A. D. 1902, that the creditors and others having claims against the estate of the above named Noah Ziegler, deceased, are to send in their names and addresses and full particulars of their claims together with a statement of the securities, if any, held by them, verifying same by statutory declaration, and the names and addresses of their Advocates, if any, to the "National Trust Company, Limited," Edmonton, Administrator of the estate of the said deceased, on or before the first day of December A. D. 1902.

And take notice that after the expiration of the time aforesaid the said administrator will be at liberty to distribute the assets of the said deceased or any part thereof amongst the parties entitled thereto, having regard only to the claims of which the said administrator then has notice.

Dated at Edmonton, this 30th day of September, A. D. 1902.
MacDONALD & GRIESBACH,
Advocates for the Administrator.

THE LOCAL IMPROVEMENT ORDINANCE

Notice is hereby given, that, under the provisions of Section 65 of The Local Improvement Ordinance, the Honorable Mr. Justice Scott has appointed Thursday, the 20th day of November, 1902, at Ten o'clock a. m. at the Court House in Edmonton, for the holding of a Court for confirmation of the returns made under the provisions of Section 65 of The Local Improvement Ordinance in respect of the following Local Improvement Districts, viz:

Local Improvement Districts Nos. 2, 17, 21, 22, 24, 30, 31, 35, 38, 42, 44, 45, 46, 52, 53, 59, 73, 159, 228, 232, 241, 249, 255, 401, 403, 405, 407, 422, 424, 431, 446, 451, 458 and 485.

Dated at Regina this 3rd day of September, 1902.

J. S. DENNIS,
Deputy Commissioner of Public Works.
98-104.

THEIR OWN MEDICINE.

Toronto Farmers' Sun: The members of the Manufacturers' Association tell us that we must strike back at the Americans by putting higher duties upon their exports to us. During the last fiscal year our purchases from them reached \$120,814,750, of which \$90,181,808 were dutiable articles and \$30,632,942 were free. Our imports of free goods showed an increase of more than \$4,000,000 over the preceding fiscal year.

Now, if the tariff is to be increased for the purpose of hitting the Americans, the proper course would seem to be to begin by putting a duty on the articles which pay no duty whatever. But strange as it may seem, the Manufacturers' Association proposes not that we put a duty on the free goods, but that we increase the duties on articles now subject to a tariff of from 20 to 50 per cent. It is true they are already prepared to put a heavy duty on such articles as fence wire and binder twine, but these two articles do not constitute 5 per cent of our free imports. If any of our readers will turn to the year book for 1901, issued by the Dominion government, they will see that the great bulk of our free imports from the United States is made up of articles that the manufacturers use themselves.

Among our free importations from the United States used almost exclusively by the manufacturers are fire and other clays, valued at \$99,696; ores, \$330,659; hickory fellows, \$24,585; hickory spokes, \$99,471; grease for soap, \$231,136; hides, \$2,432,297; raw silk, \$261,637; raw wool, \$398,289; broom corn, \$209,440; tobacco (unmanufactured), \$1,720,589; flax, \$662,696; asphalt, \$61,328; fire brick, (for manufacturing purposes), \$44,303; cotton waste, \$259,913; cotton wool, \$4,731,812; drugs, \$1,287,055; gum (for manufacturing purposes), \$644,006; duck (for manufacturers of belting and hose) \$102,270; glove fasteners, \$68,599; hatbands, \$48,462; brass, \$312,779; copper, \$909,897; iron or steel rods in coil, \$531,412; mining and smelting machinery, \$1,496,664; tin blocks, \$467,016; tin plates, \$67,913; oils, coconut or palm, \$844,775; rags, \$133,075; resin, \$121,749; rubber, crude, \$174,684. The list is, of course, far too long to produce here, but these are among the principal articles which the manufacturers get in free of duty.

The manufacturers tell us that it is the seller, not the consumer, who pays the duty. If their assertion is correct, they would have to pay no higher prices if duties were imposed on this long list of free articles. If they wish to "hit" the Americans they can accomplish their purpose just as well by imposing duties on goods now free as by increasing duties on goods now dutiable. The fact that they want the goods they use to remain free and the goods the consumer uses to be more highly taxed would seem to show that they have no confidence in the theories which they propound, and that they believe that higher duties mean higher prices to the purchaser. They want the Americans to be fought, but they prefer that some one else should do the fighting.

What The Cotton Lords Want.

The annual meeting of the Montmorency Cotton company, which took place Saturday in Quebec, was notable for the fact that it evoked from the president an important statement on the tariff question.

Lieut.-Colonel Fred Henshaw was elected president. In the course of his address, the president, speaking of the fiscal condition of the country, as applied to Canada's industrial enterprises, said: "The tariff question is one that is exciting a good deal of interest at the present moment, as a united effort is being made by the manufacturers generally of both sides of politics to obtain a greater measure of protection."

"Unquestionably a large quantity of goods are coming into the country which might be displaced by home products, were a higher tariff in force. A mill in Canada necessarily costs much more than an identical plant in England, most of the main line goods, which were at the time much higher than his quotation for this market."

"The American manufacturer, in addition to the high tariff, is further protected by a body of highly paid experts known as a board of appraisers, who have power to see that the tariff is rightly enforced and refuse to admit any goods into the United States at less valuation than the known market value of similar articles in the exporting country."

"I would, however," said the president in conclusion, "urgently impress upon all manufacturers in the fight, for further protection, to stand and work together and avoid even the slightest appearance of political leanings towards either party."

"I think that cotton manufacturers should especially co-operative with the industries who buy their product with a view to further converting it."

Colonel Henshaw said that in addition to the foregoing, business had only been fairly good during the last six months and did not warrant the paying of a dividend.

In the first place, he said, the Canadian cotton industry was injured by the preference given to British goods, while goods that should be manufactured here were being brought in

from the United States for the reasons given in his statement.

Also that the China trade was lost, as mills were being built in that country.

WHITFORD AND BEAVER LAKE

A. Driscoll, C. E., Northwest government engineer, returned on Tuesday from a week's trip to Beaver and Whitford lakes. The roads are good throughout the whole region traversed, but rough in some places. In some localities very little statute labor has been done; which had it been done would have made the roads generally good throughout. Petitions had been received for road surveys on each side of Beaver lake, but on inspection it was found that the proposed surveys both ran through what is now a lake. They were therefore declared off. The Borwick sloughs near Whitford, which have been a difficulty to travellers for several years will be improved at an early date either by drainage as by corduroy. Several necessary road diversions have been made around Beaver lake and in other localities. In the present condition of the roads it is possible to drive from Whitford to Edmonton in a day. Mr. Driscoll drove from Wostok.

Ducks are very numerous in all the lakes and in the vicinity of Whitford prairie chickens are also very numerous. Geese had not yet come down from the north in numbers. A very few flocks were seen.

Stacking was finished in all the country traversed, and apparently the country was in good shape for the close of the season. Threshing had begun and the yields were very good.

OLDS

Oracle, Oct. 3rd. The fine weather is still with us. We have had very little hard frost so far this season and little wind or rain.

Thos. Hainstock who has been critically ill of typhoid fever is recovering, but very slowly.

It may not be generally known that about 14 miles west of Olds, there is quite a settlement of Seventh Day Adventists and that they are erecting a church building in which religious services will soon be held regularly on Saturdays.

Disbury items: The foundations of the new Menominee church are completed and building skyward goes on apace.

Mr. Wickwar, owner of one of the largest breweries in New Brunswick, is coming to Disbury shortly to start his son on an extensive ranch.

The creamery is still making two tons of butter weekly.

MACLEOD.

Gazette, Oct. 3.

No less than sixty-four new binders have been sent out from MacLeod this year, which is considered pretty good seeing that there has been no irrigation work done in the district.

The Union Bank of Canada have absorbed the business of Cowdry Bros. at Cardston, and the latter retire entirely from that field. Mr. Chas. A. Gigot, late manager for Cowdry Bros. at Cardston, has been appointed manager of the new branch of the Union Bank.

Mr. and Mrs. C. D. T. Becher returned from Edmonton on Tuesday where they were visiting friends for a couple of weeks.

E. J. Vukich, who came here from Elko, B. C., to act as station agent, was taken to the hospital this week suffering with typhoid fever.

Mannell Bros. shipped four car loads of beef cattle on Tuesday. They were consigned to P. Burns & Co. for their Yukon trade.

ALBERTA COAL.

Frank Sentinel. The mine of the Canadian-American C. & C. Co., Frank's main dependence is now in better shape than ever before. The main entry is in well over 5000 feet, and in the workings over 100 miners are given steady employment. The face of the entry shows over fifteen feet of the very best steam and coking coal mined anywhere in America. It is safe to say that this mine is the best developed mine and the largest producer of coal in the Canadian Northwest and it bids fair to rank before another year as the biggest coal property in the Dominion.

The present month has been a fairly good one, although there has been several shutdowns for want of cars to handle the output and to transport the necessary lumber for chutes boards from the East Kootenay mills. Up to yesterday the amount of coal sent out this month was 12,000 tons. When the electric haulage and the other immediate improvements contemplated are put in, this output can be easily doubled.

BEE TREE IN MANITOBA.

Starbuck correspondence of Wianpeg Tribune: A bee tree was discovered on the farm of Mr. Dunlop, Islay. It is estimated over eighty pounds of honey was extracted therefrom. This hive, which was inhabited by over 10,000 regular Italian tame bees, proves positively that bees will live through our winter, as some of the combs were two years old, and the bees must have wintered in the tree.

Frank Sentinel: As stated in these columns a few weeks ago the Union Bank will be doing business here before the end of the month, all arrangements being made to start on Monday in the Bertaux building, which is being completed.

PORK PACKING AT CALGARY.

Free Press. Mention was made in the Free Press recently that J. Y. Griffin & Co., the well known pork packers contemplated opening a branch packing house at Calgary. On enquiry from this firm they state that at a meeting of the members of their firm, held at Calgary a few days ago, they had decided to open there at once. It is the intention to erect a solid stone building, 50x130, two stories and a basement. Plans are now being prepared, and in addition to packing hogs, they will deal extensively in butter, eggs, cheese and poultry, etc., exactly on the same lines which they handle in their Winnipeg business.

LOST FOR TWENTY TWO DAYS.

Calgary "Albertan." There was an alarm at Canmore this week. A man named Morgan disappeared and had been absent for 22 days and no trace could be had of him. The Northwest Mounted Police were informed of the disappearance and started out Thursday to find him. When they reached Canmore Morgan had returned. He had gone out in the mountains to fish and had got snow bound. During the 22 days he had lived on fish.

Tarte And La Patrie.

Montreal, Que., Sept. 29.—Hon. J. Israel Tarte is back again in Montreal from his western tour and in conversation yesterday with a friend, the minister of public works intimated that the leather is on fire in the great manufacturing province of Ontario, adding that his reception was enthusiastic and that his views on the tariff appeared to be unusually accepted.

Montreal, Sept. 27.—La Patrie says: "Mr. Tarte is blamed for not awaiting the return of Sir Wilfrid and Hon. Mr. Fielding, but this is ridiculous, for did not Mr. Tarte use the same language on a dozen different occasions in the presence of his colleagues?" La Patrie adds: "The campaign that has been directed against Mr. Tarte is a personal one, dictated by motives which we know very well, although some men of good faith have been drawn into it, and it goes without saying that we take no notice of the advice and opinions of Le Soleil, as that paper has not ceased in its unfriendly attitude toward Mr. Tarte. The Toronto Globe no more represents the views of the liberal party and its attitude towards Mr. Tarte than it did when a few days ago it offered to coalesce with the Tory party without even consulting the prime minister or any other member of the Ross government."

A French Conservative Opinion.

Montreal, Sept. 30.—Le Journal to-day, discussing the tariff war among liberals, expresses the opinion that Mr. Tarte is simply playing with the people, that the whole thing is an electoral ruse, and that so soon as Sir Wilfrid Laurier gets back there will be an explanation, the free traders will back down, and next session will see a substantial increase in the tariff.

Commission Broker, Edmonton, Alberta

THE C. N. R. JUNCTION.

The material necessary for making the junction of the C. N. R. with the C. & E. tracks, a mile south of Strathcona, arrived something over a week ago. As soon as it arrived Manager Pace attempted to put in the connection, but was forbidden by the C. P. R. authorities at Strathcona. Matters remained stationary for some days. Mr. Pace moved the material down to the point of junction and got everything ready when the C. P. R. should give permission. There was considerable telegraphing back and forward, but without the C. P. R. showing any sign of giving the necessary permission. Mr. Pace had the authority of the railway committee of the privy council granted in April last to put in the connection, and the C. P. R. had refused to allow the C. & E. track and refused to allow the material to be taken up. What the ultimate object of the C. P. R. was, I should not guess, but their attitude did not tend to increase the popularity with which that company is viewed in this district. On Tuesday the C. P. R. authorities asked for the services of two policemen ostensibly to protect the track, but no effort was made to molest it on that day. On Wednesday morning, however, Mr. Pace was ready at the junction with his men and material and as soon as the regular train had gone south he proceeded to the work of taking up the necessary rails. He was at once waited upon by a policeman with an order not to lift the C. & E. rails. This produced no effect, when the constable produced a warrant for Mr. Pace's arrest. Mr. Pace paid no attention to the warrant, and ordered his gang to go on with their work. But they having a wholesome fear of constituted authority were very slow about doing so. While they were considering, an engine which had come in from the south during the night, came down from the Strathcona yards, and the men stepped aside from the track to let it pass. But it didn't pass. It stopped right on the proposed junction and was evidently intended to remain there all day. Of course Mr. Pace could do nothing while the train stood there, and called off his men to work at a bridge on the Mill Creek. He worked there with them during the forenoon, but arranged everything so that he would be on hand with his men at the junction when the regular train from the south came along at 5:30. The guard train would have to back up half a mile to the Y. & O. E. regular into the station. Before it could get out again Mr. Pace figured that he could get the rails lifted, when it would have to wait until the connection was made. During the afternoon he came over to the Edmonton station grounds to oversee the work there, intending to be on hand at the junction at 5:30 sharp.

In the meantime word had reached Edmonton that the C. P. R. people were forcibly resisting the putting in of the connection; and a great many citizens figured that if it were merely a question of force there was no reason why the C. N. R. should be at a disadvantage. Immediately after dinner several bus loads of men were gathered in Edmonton and drove over to the point of junction to assist Mr. Pace. With such force as might be necessary. But Mr. Pace was no where in sight, nor was there anything to indicate that he meant business in putting in the connection. Under the circumstances there was nothing that the crowd could do, so after waiting for about an hour and hearing nothing of Mr. Pace, they began to straggle home, and before the regular train came along at 5:30 there were comparatively few left. Those who remained, however, were well paid.

About a quarter after five Mr. Pace appeared quite casually on the scene, and wondered what all the row was about. The regular was soon sighted and the guard train backed slowly up to the Y to let it into the Strathcona station. As soon as the regular had passed the point of connection Mr. Pace gave a sharp whistle, his gang, who had been resting calmly and unobtrusively behind some convenient shrubbery, appeared on the scene and proceeded to lift the C. & E. rails, at the same time putting out red flags at each side. The rails were up before the guard train could get back into place to hold them down. Once the C. P. R. people saw that Mr. Pace was ahead of them, they did not attempt to molest him. Donald Hines, of Edmonton, had the honor of driving the first spike in the connection and the whole thing was completed in less than an hour. A mixed train came in a little after eight o'clock passing over the newly made connection. The guard train went out before daylight and the regular at 8:30. On Thursday morning Supt. Niblock wired the section foreman to inspect the connection, which he did and pronounced it perfectly safe. The semaphores were being put up and the finishing up on the work of connection on Thursday.

On Thursday morning a report was circulated in Edmonton that the C. P. R. had torn up the connection. This led to a good deal of excited talk, but it was found to be a false alarm. Look Out for Ontario Apples. Winnipeg Commercial; Already we hear complaints, says the Montreal Trade Bulletin, of early apples, such as Duchesne, arriving on the other side in poor condition, and that the market for such stock was very unsatisfactory. This is only what might be expected, and is simply a repetition of the occurrences of former years. A few lots of choice early

fruit arrived in British markets before the English crop came on the market, in any quantity, and consequently, they brought good prices netting returns on this side which paid handsomely. Then followed a rush of shipments of soft early apples and down went prices, and unless great care is exercised in the shipment of this early fall fruit the same thing may happen this year. Should too many poor keepers be sent over, they may affect the market adversely for the great bulk of the subsequent shipments of winter fruit. Advice from the orchards of Ontario within the past few days state that in sections where the fruit is spotted, sales have been made at 75c per bbl. for the fruit, and that \$1 per bbl. was the average price for good stock, fancy stock such as spies bringing \$1.20 to \$1.25 per bbl. for the fruit. A dealer in this city who has just returned from the west, says he was offered any quantity of good winter stock at \$1.00. In this market choice duchesne has sold at \$1.50 to \$1.75 per bbl. and other less desirable kinds of early fruit brought \$1 to \$1.25 per bbl., some wind-falls selling at 50c to 90c per bbl.

Manitoba Markets.

Commercial, Oct. 4; Manitoba wheat has been fairly active during the week and a considerable business has been done. At the beginning of the week the feeling was depressed and buyers held back and would only take wheat when the price was shaded. Latterly, however, buying has been on a better scale. Prices have fluctuated from 68 1/2 to 69 1/2 for No. 1 hard, delivery first half of October, and from 67 3/4 to 68 3/4, delivery last half October, the outside prices being obtainable yesterday. No. 1 northern sells at 3c less than No. 1 hard, and No. 2 northern at 2 1/2c under No. 1 northern. There is almost nothing doing in lower grades yet, but No. 3 northern has been sold at 62c, October delivery, and No. 4 wheat at 58c. All prices are in store Fort William or Port Arthur.

Country Wheat.—Farmers are delivering freely at all points and the market steady at 58 to 60c per bushel for best grades, according to rate of freight.

Oats.—Receipts of oats are increasing and the market is weaker. Local dealers are quoting 23 to 25c per bushel for No. 2 white in carlots on track here, and 23c for feed white. At country points from 18 to 20c is being paid for farmers' loads, according to location.

Barley.—Deliveries are increasing and the market is easier. Malt-ing barley is to-day worth 33c per bushel in cars on track here and feed grades 27 to 30c.

We Flatter Ourselves

That there are at least a few lines in which we are noticeably in advance of our competitors. We would like to ask inspection of our

Real Estate Agent, Edmonton

Office 1 door east of Postoffice.

BANK OF COMMERCIAL

T. M. Turnbull, manager, P. J. Jory, accountant, and A. Band, ledger keeper, of the Bank of Commercial staff, arrived last week to open business for the bank here. The fixtures had not arrived, however, and the branch will not be opened until about the 15th. Everything is now here and no further delay is expected. Mr. Turnbull, has been accountant in the London branch of the bank for a number of years. Messrs. Jory and Band are from the Winnipeg branch.

The Commercial is one of the great banks of Canada, ranking next to the Montreal in capital. The capital of the Commercial is eight millions; that of the Montreal twelve. The Bank of Commercial has over sixty branches in Canada, one in London, England, and in New York, San Francisco, Seattle, Portland and Skagway in the United States.

The Commercial was the first bank to enter the Canadian Yukon, and transacts a very large part of the business of that territory at its branches in Dawson and White Horse.

The fact that the Commercial is banker for the Canadian Northern railway causes it to be looked upon with especial interest in the west. The recent opening of so many branches of the bank in the west, especially along the C. N. R., lines is an evidence of the faith of the bank in the country and in the C. N. R. scheme as well. Its western branches recently opened or to be opened are: Edmonton, Calgary, Medicine Hat, and Mooseomin in the Territories, and Swan river, Grand View, Dauphin, Neepawa, Elgin, and Carman in Manitoba. About a year and a half ago the Commercial absorbed the Bank of British Columbia, which gave it a strong hold in the Pacific province. It has the reputation of being one of the most substantial and progressive of Canadian banks.

The Edmonton branch will occupy the west half of the new McLeod block until their new premises are completed next season on the site of the club building, recently removed.

FROM LESSER SLAVE LAKE.

A. W. Ponton, D. L. S., of the Indian department surveys, arrived from Lesser Slave lake with his party yesterday. He left the lake on October 2nd and was three days coming in from the Landing. The road from the Landing is good. The weather at the lake was exceptionally fine. The first frost occurred on Sept. 16th, and was very slight. There was a color of snow also that morning. All crops are excellent this season but of course they are very limited. The Roman Catholic mission has the largest crop. They have wheat as well as oats and barley. Although there was less rain than last year the lake is from two to three feet higher. All the hay meadows of former years along the lake are flooded but there is lots of upland hay and the Indians have a large quantity put up. The Indians are going to work energetically on their new locations and are expecting cattle from Edmonton this fall.

Mr. Ponton's work this season was to locate some fourteen families who have taken their land in severalty along the Swan river. Each family receives 160 acres and the work of adjusting the claims is very difficult. The river is very crooked and each wants a frontage on it. Mr. Ponton describes the soil and situation along the Swan river as perfect and the climate is equal to the soil. This is Mr. Ponton's second visit to Lesser Slave lake and he is even more favorably impressed with the possibilities of the region this season than last.

THE AUSTRALIAN DUTY.

The acting commissioner of agriculture, Ottawa, wires as follows under date of today: "Department of trade and commerce say latest information is that duty on oats, Australia, is 30c per hundred pounds. The advice (of Sept. 27th) does not say if price (\$6 per bushel) is wholesale or retail."

THE WEATHER.

	Max.	Min.

Friday,	63	36

THE WATERWORKS.

Work is in active progress on the waterworks and sewers, on Jasper avenue from McDougall to Howard streets and on Fourth street, H. B. reserve from McKay to Victoria. The work is finished and covered in on Jasper avenue from Namayo to Howard. All the connections and fittings have arrived to enable the water mains to be laid up Fourth to Jasper, and eastward on Jasper to Namayo. This part of the work will probably be completed this fall, and will give water for fire protection to the business part of the town.

The sewer will be laid on Fourth from McKay to Victoria; then east on Victoria to Third; north on Third to Jasper and east on Jasper to Namayo.

THE DAILY EXPRESS TRAIN.

Will become a fact on Monday next, Oct. 12th. Commencing on that date an express train will arrive in Strathcona from Calgary each week day at 5:30 p. m. and will leave for Calgary at 8:30 a. m. The post office authorities have received notice to that effect, but up to date the C. P. R. agent had not been notified. It will be safer therefore for passengers who wish to leave on Monday morning's train to get to the station at 7 o'clock as usual, unless they get later information.

DEATH OF MRS. WATT.

Mrs. J. C. Watt, daughter of E. Dowling, president of the Dowling Milling Co., died at her residence, Edmonton, on Wednesday, Oct. 8th, of diphtheria. Deceased had contracted the disease but a short time previous and despite the greatest effort of the physicians to check its progress she succumbed to it on Wednesday evening.

The funeral took place to the Edmonton cemetery yesterday at 2 p. m. Deceased was 22 years of age and highly esteemed by all who knew her. Her husband and relatives have the sympathy of the community in their sad bereavement.

THE RAILWAY.

The C. N. R. track is now completed ready for trains from the junction to the Edmonton station; the junction is made, and the station will be completed this week. The building is now enclosed, and when completed will be no credit either to the railway company or the town. The several tracks are not all laid at the station grounds but can be completed in a day or less. There is no word or sign yet of the phantom train regarding which Supt. Hanna wired on Sept. 17th.

THE FAR NORTH.

Is the title of a series of plate reproductions of photos taken by C. W. Mathers during his trip down the Mackenzie last year. They include photos of Esquimaux and Indians, of Hudson's Bay steamers, Indian canoes and Esquimaux; of lake, river and rapid, of the most northerly buildings inhabited by white men and strongest of all of the sun at midnight. The collection is invaluable as a curiosity as well as a work of art. The scenes and people shown were never photoed before by a competent artist, which Mr. Mathers undoubtedly is. The book contains 28 plates and sells at \$1.50.

SUPREME COURT.

On Tuesday, Joe Brunelle, real estate agent of Edmonton, was tried before his honor, Judge Scott, on a charge of obtaining property by fraudulent means, preferred by one Mrs. Larose, Strathcona. After hearing the evidence his honor acquitted the defendant.

The sitting of the supreme court will be renewed on Tuesday, Oct. 14th. The cases of Stinson vs. Hamilton will come up first, followed by the Russian church case.

A FINE FALL.

Beautiful weather continues. Flowers are still in bloom in the gardens in town. Stacking is finished and threshing and fall plowing are in progress. The roads are excellent.

HOTEL ARRIVALS.

Thursday. Queen's—A. W. Ponton, David Gilroy, Chas. Cook, Joseph Courier, Lesser Slave lake; W. C. Hall, Verden, Neb.; A. E. Dunn, Miss B. Bateman, Battleford; A. Hamilton, A. Lawson, Lawson, Wetaskiwin; A. Unterschutz, Fort Saskatchewan; T. Glave, Stony Plain.

Oil in New Brunswick.

Moncton, N. B., Oct. 2.—(Special.)—Well No. 7 of the New Brunswick Petroleum Company is now pumping 27 barrels per day of high grade oil. Another rich oil sand of 48 feet thickness was struck yesterday by one of the drilling machines. Plans are under way for the building of a refinery on the tide waters of the Memramcook river, and the laying of a pipe line from the wells at St. Joseph.

At a meeting of the license commissioners held to-day a license was granted Laurence & Corriveau for the new Windsor hotel, now under construction.

—Messrs. Andrew Loughlan, Frank Ryan and Wm. J. Collinson left Wednesday morning on a prospecting trip through the Birch lake district.

EDMONTON'S CASH STORE.

J. H. Morris & Co.

There is no question that the man who buys his Neckwear, Shirts, Collars and Hats at J. H. MORRIS & Co.'s store will create a favorable impression wherever he goes.

Every young man with ambition is critical about his clothes. What the tailor promises you can see right here without paying out a cent—you can see the Suit right on you. You can see how it looks and how it fits. You can see all this and still not commit yourself. And as for price, you can fit your pocket-book anywhere from \$10 to \$18. At the latter price you can get a Suit that makes the thirty dollar tailor weep.

J. H. MORRIS & CO. THE ONE PRICE HOUSE
TERMS CASH

THE LONG AND SHORT OF IT.

YOU CALL—WE DO THE REST.

All Eyes are on Us.

We are head and shoulders over our competitors. And, why?

Because our untiring efforts to procure the Best Made and Finished Clothing has been amply rewarded by a large increase in fall trade.

By buying for Cash we save all the special discounts, which is our profit, and you save the middlemen's commission.

We fit you while you wait, giving you your choice of Two Hundred Patterns to choose from.

Our Fall and Winter Goods are arriving daily. Overcoats of the very latest style at a surprisingly low price. Ties, prices are not in it for values as compared with prices obtained.
